### RESIDENTIAL CAMP

Our coaching staff will put campers through technical and tactical exercises that will reflect a game environment. Both the technical and tactical applications are taught at the highest level to ensure the player gets the maximum from this training environment. These exercises coupled with functional training will ensure that the coaching each player receives prepares them for the conditions they encounter during a competitive game.

### RESIDENTIAL CAMP SCHEDULE

Afternoon Session

- Small Group Tactical Training

Evening Session

- Soccer Tennis/Futsal/Small/Full Sided Games

### DAY CAMP

The day camp will be an environment where our coaching staff will develop the player with individual technical work and small sided games. This environment will ensure that the soccer player gets the maximum entertainment from their camp experience while also becoming a better soccer player. These conditions are wonderful for the younger soccer player who wants to learn from a quality coaching staff and enjoy their soccer experience.

### TEAM CAMP

If you want to attend Sooner Soccer Camps as a team, you must have 10 or more people. By request, the camp staff will cater to each team's training needs with a challenging program that will cover technical and tactical areas of the game. Each team member will also receive a free Sooner Soccer string bag.

### SOONER GOALKEEPER ACADEMY

Goalkeeper training will be available at all of our camps. Goalkeepers are trained on both the technical and tactical elements of the position. The training is game specific and is designed to give goalkeepers the ability to impact their game immediately. Goalkeepers will be integrated into small sided and full sided games to help enhance their development at camp.
